\* Bonus Tracks For Japan

Breathing in and breathing out  
My head leaned back my hands are tied  
I stand in here alone I scream, questions why  
Days slip by and nights I taste  
These memories run through my veins  
Injecting me with one last kiss, screaming why

I stand in here  
questioning why  
days slip by  
these memories

Whispers of October

reasons why  
you had to go  
linger now  
broken fate

This medication, can't save me  
And desperation, takes hold of me  
I wanted to believe in all of this  
I wanted to believe in you

All I am, all I have  
Leads me down these roads again  
Take my hand, show me the way  
And never bring me back here

Determination, is pushing me  
Perseverance, is what I bleed  
I wanted to believe in all of this  
I wanted to believe in you

All I am, all I have  
Leads me down these roads again  
Take my hand, show me the way  
And never bring me back here

These are my unanswered prayers  
The time has come for me to say goodbye

God please hear me, calling

All I am, all I have  
Leads me down these roads again  
Take my hand, show me the way  
And never bring me back here

These are my unanswered prayers  
The time has come for me to say goodbye

God please hear me, calling

Prayers

Silent night, let me sleep away these memories within  
Sacrifices of purity are turning into sins  
And this judgment day is growing near  
And this confession is killing me again

This beautiful tragedy is crashing into me  
This dying destiny

So now you lay yourself down in this grave with shattered eye  
Beautiful melodies to try and wash away the lies  
And this judgment day is growing near  
And this confession is killing me again

This beautiful tragedy is crashing into me  
This dying destiny, take me away  
This beautiful tragedy come crashing into me  
This dying destiny

Will you be there  
Will you be there by my grave  
Or will you be the death of me  
My beautiful tragedy

This beautiful tragedy is crashing into me  
This dying destiny, take me away  
This beautiful tragedy come crashing into me  
This dying destiny

Skies are falling tonight  
As you run and hide  
Ashes to ashes  
Dust to dust

It is said hail and fire mixed with blood  
Will be thrown down upon the earth  
Darkness fills a third of the lands  
And the angels cry woe  
A star from heaven is thrown from the sky  
Destroying a third of our seas  
Not only these things but more will come  
It is our fate, it is the end  
Apocalypse

We die here tonight  
You die here tonight  
We all die here tonight

Skies are falling tonight  
As you run and hide  
Ashes to ashes  
Dust to dust

Ashes to ashes  
We all fall down

As your eyes start bleed, you realize it's too late  
And as your sky starts to fall, you realize you're standing alone

The time has come for this to bleed  
The opening of what you've always known is growing near

All you've feared here  
Looks you in the eyes  
We all fall down

Skies are falling tonight  
As you run and hide  
Ashes to ashes  
Dust to dust

The wrath of your hate has returned  
The plague is reaping back  
Three-fold of what you've already sown

All you've feared here  
Looks you in the eyes  
We all fall down

# Daddy's Falling Angel

Pull these scars off my eyes  
Lost from the world  
A child searching for her dad

You left me there alone  
With him to rape my world  
And I lived through the years a girl  
Pleading why

In my dreams last night I saw your face  
You held me and washed away my tears  
Then I woke to realize you're gone  
I'm drowning in solitude again

I thank God for my mother's love  
Through years of broken innocence  
She carried me through the light

In my dreams last night I saw your face  
You held me and washed away my tears  
Then I woke to realize you're gone  
I'm drowning in solitude again

When you realize that fate is gone  
Just look at me and say goodbye  
So tell me how you feel  
So tell me how

As these years and time go racing by  
I'm drowning in solitude again

No, this won't kill me

In my dreams last night I saw your face  
You held me and washed away my tears  
Then I woke to realize you're gone  
I'm drowning in solitude again

This won't kill me

As I lie in this moment  
Frozen since that day  
I've been drowning in questions  
Over and over again

Your legacy lives on  
And you are by our side  
Right here with me  
The time has come for you to fly  
Now that you're free  
You will always live in me

I know you saw their faces  
And how they lined up for you  
We know that you were looking down on us  
As the sky filled with reds

Your legacy goes on  
And you are by my side  
Right here with me  
The time has come for you to fly  
Now that you're free  
You will always live in me

What I would give just to be with you  
This world feels cold and grey since you went away  
I see your smiles and love in your sister's eyes  
One day we will be one, when we reunite

I know you're by my side  
Right here with me  
The time has come for you to fly  
Now that you're free  
You will always live in me

Here by my side  
I'll see you again my friend  
You will be, always by our side

Can we run away tonight  
And hide from tomorrow's

The glass is cracking tonight  
Shattering our fears away  
The silence in here fades  
And it's only your eyes that I see

Take me, pull me all around  
Break me, I'm yours

Can we run away tonight  
And hide from tomorrow's

We die in this moment  
And I don't want to wake from this  
I can barely breathe  
Suffocating on what you gave me

Take me, pull me all around  
Break me, I'm yours

Can we run away tonight  
And hide from tomorrow's

It's quiet now  
Whispers confess  
Can we run away now  
And hide from tomorrow

Can we run away tonight  
And hide from tomorrow's

# IN THIS MOMENT,

# The Legacy of Julie

You don't know the torture  
You don't know the pain  
Loving what you can't have  
Is driving me insane  
I'm dangerous, I pull away  
You're dangerous, so keep your distance  
Still you run through my veins  
And there's nothing I can do

I'll be waiting, waiting for you  
Meet me in the, in the next life

I still can hear you screaming  
I still can see your eyes  
Believing in your love for me  
As you watched me die  
I'm dangerous, I pull away  
You're dangerous, so keep your distance  
Still you run through my veins  
And there's nothing I can do

I'll be waiting, waiting for you  
Meet me in the, in the next life

So now we've gone our own ways  
Memories dried and scabbed  
Your scars show on your hands  
Mine show in my eyes  
So now we've gone our own ways  
Memories dried and scabbed  
These scars show now

You're dangerous

I'll be waiting, waiting for you  
Meet me in the, in the next life

Now we've gone our own ways  
Memories dried and scabbed  
These scars show now

# Circles

Black birds swarming  
Letting me know I am saved  
Shadows dancing  
Bringing me from yesterdays

Will I be saved, these voices are killing me  
Will I make it through the brink of sanity

I know the skies will save me  
I know

As we go in circles  
I am fading now  
As we go in circles

Halo's glowing, showing me where I can turn  
Angels falling, somehow I know I am loved

I know the skies will save me  
I know

As we go in circles  
I am fading now  
As we go in circles

I know the skies will save me  
I know

As we go in circles  
I am fading now  
As we go in circles

*I can turn  
I know I am loved  
I am falling, somehow I know I am loved*

I've been driving through these nights  
This road reminding me of all I am  
As time drags on, these windows fade  
Reality starts slipping from my mind  
All I know is this all fades, the second that I'm by your side  
Can this be real, can this be fate

Just say you'll be there for me  
Please say that you'll be there  
Just say that you'll be my side  
When the storm subsides

All these years beneath the skin  
Everything inside me turning to the shame  
I was lost, but now I can see  
This fate is turning deep inside of me  
All I know is this all fades, the second that I'm by your side  
Can this be real, can this be fate

Just say that you'll be with me  
Please say that you'll be there  
Just say that you'll be my side  
When the storm subsides

*Believe*

Whispers of October, haunting within  
As the sun dies and the stars fall  
This beautiful fate gently wraps these wounds  
Suppressing the bleeding to these torn fullables, we are one  
And these wings fall around me and I know in one breath I am free

Believe
